Data sheet:
homeplug 200 Mbps dual pack

Product code : LN-515
Product name : homeplug 200 Mpbs dual pack
EAN code : 8716502020904

Create a network via the electrical wiring without the need to install cables

With the Homeplug 200 Mbps Dual-pack, consisting of two homeplug adapters, you can quickly and easily create a network at home or in the office via the electrical wiring

The great thing about the Homeplug is the ease of installation: because this solution makes use of the electrical wiring there is no need to install cables. This allows you to share files and peripherals among all connected devices at speeds of up to 200 Mbps in the blink of an eye — ideal for sending email, surfing the internet and sharing documents

Thanks to the integrated security button you can create a secure connection at the push of a button

The power-saving function ensures that the homeplug automatically switches to standby when the connected device is switched off. This reduces power consumption by around 60%

Technical specifications

- Homeplug AV compliant
- Up to 200 Mbps PLC data transmission rate
- 128-bit AES Link Encryption with key management for secure powerline communications
- Simple installation, just Plug and Play
- IEEE 802.3, IEEE 802.3U, Homeplug 1.0.1
- Frequency band 4.3 – 20.9 MHz
- Modulation OFDM (QAM 8/16/64/256/1024, DBPSK, DQPSK, ROBO)
- Port: one 10/100 Ethernet RJ45 port
- Power Supply: 100-240 VAC 50/60Hz
- Power Consumption: < 6W

This package contains:

- Homeplug 200 Mbps dual pack
- Driver CD Rom
- User manual
- 2x UTP Cable

System requirements:

- Free network port
- (for utility), Windows 7/ Vista/XP/2000
